# PRIME WIRELESS SOUNDBASE

Welcome!

Congratulations on bringing home the SVS Prime Wireless SoundBase, a stunning achievement in sound quality and home audio connectivity. We know you are eager to start playing so this Quick Start Guide will walk you through the various controls and connections and get you on the fast path to enjoying high-resolution wireless streaming of your favorite playlists and music services.

Included Accessories

Power Cord

(A) Source & Preset Control
Rotate the knob to change the input. Press the knob to select a preset (after they are programmed).

(B) Front Panel Display
LED backlighting indicates the selected audio source (Wi-Fi, Bluetooth, Optical or Auxiliary) and preset (1-6).
(C) Play, Pause & Volume Control
Rotate the knob to adjust volume. Press the knob to pause/un-pause.
(D) Headphone Output
Connect headphones for private listening.

## Connecting Speakers to Prime Wireless SoundBase

1. Connect Left and Right speaker cables to +/- terminals on your loudspeakers.

2. Connect speakers to matching Prime Wireless SoundBase Left and Right +/- terminals ① via bare wire, banana plugs or spades.

Right Speaker   *Left Speaker*

Connecting Prime Wireless SoundBase as a Source for an A/V Receiver or Preamp

1. Connect RCA interconnect to proper input on AV receiver or Preamp Input.

2. Connect opposite end of RCA Interconnect to SVS Prime Wireless Soundbase RCA Output ⑦.

Setting Up Wi-Fi and the DTS Play-Fi App

Download Play-Fi App

1

Search "Play-Fi" and download the free DTS Play-Fi app to unlock the full functionality of your SVS Prime Wireless SoundBase.

Start Prime Wireless SoundBase Wi-Fi Setup Mode

2

Once powered on, the Prime Wireless SoundBase will automatically go into Wi-Fi setup mode, indicated by a rapidly blinking yellow light on the rear panel ⑨. When the blinking light slows down, it's ready to connect. Wi-Fi connection is confirmed when yellow light remains on permanently.

Connect Prime Wireless SoundBase to Wi-Fi Network

3

 iOS users must go to the "Settings" -> "Wi-Fi" and connect to "PlayFiDevice..." like you would a normal Wi-Fi network.
 Android users skip to step 4.
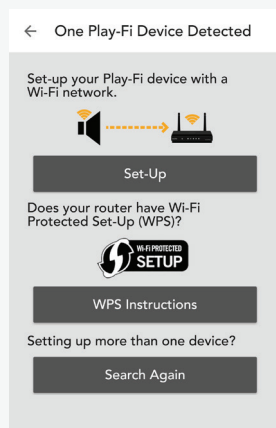

Configure Play-Fi App

4

Open the Play-Fi app and follow the prompts to finish setting up your Prime Wireless SoundBase on your home Wi-Fi network.

Note: The Prime Wireless SoundBase may require an update before letting you stream music. The Play-Fi app will show a notification and complete the update automatically. This is normal and can take 3-5 minutes.

If your SVS Prime Wireless SoundBase is not being discovered by the Wi-Fi network, try moving it closer to your router or to a stronger signal area to establish a connection. Also, make sure the speaker and app are both configured to the same Wi-Fi network in your home.

10 Bluetooth Setup
Puts Prime Wireless SoundBase in Bluetooth pairing mode and shows status of Bluetooth connection. Blinking blue light indicates pairing mode, solid light means it's connected and ready to use.

11 AC Power Cord Input

Create Custom Presets

Up to six presets are available for instant access to your favorite streaming music channels, playlists and other content.

1. From the Play-Fi app, start the streaming service you want to set as a preset.
2. Press the left control knob Ⓐ to select which preset Ⓑ you want to set (1-6). Each press will move to the next preset.
3. When desired preset number is selected, press and hold the preset knob for three seconds. The preset number will flash several times then stay on to confirm, and music will resume playing.
4. Follow instructions above for the remaining five presets.
5. You can now access your favorite content by pressing the left knob to toggle through your presets at any time.
To reset a preset, repeat the steps 1 - 5.

NOTE: It takes a few seconds for the preset to connect to music services from your Wi-Fi network. This is normal.
Spotify®   pandora®   TIDAL HIGH FIDELITY MUSIC STREAMING   InternetRadio   iHeartRADIO

Current services available as presets. More options coming soon, check svsound.com/products/prime-wireless-soundbase for updates.

Setting Up Bluetooth

1. Press the Bluetooth Setup button ⑩ once to activate Bluetooth pairing. This is indicated when the blue LED on the rear panel goes from slow to a rapid blinking.
2. Select Bluetooth as your source by rotating the left knob Ⓐ until the Bluetooth logo on the front panel display is highlighted Ⓑ.
3. View Bluetooth settings on your smartphone or tablet and select "SVS AMPLIFIER ..."
4. Confirm pairing when the light stops blinking and remains on. You can now stream music services and audio content from your device any time you select Bluetooth as your source.

Connecting Devices via AUX and Optical Inputs

1. Connect your device to the Optical In ⑧ or L/R AUX In ② inputs or the AUX In ③ on your Prime Wireless SoundBase.
2. Select the input by rotating the left control knob – the source will be displayed on the front panel.
3. Operate connected device as normal.
4. Volume can be controlled from the Play-Fi app.
